INNEHÅLL.

BERNSTRÖM, PETER, Cytogenetic studies on relationships between annual species of *Lamium* 1

BREWBAKER, JAMES L., Studies of oppositional allelism in *Trifolium nigrescens* .. 367

BÖCHER, TYGE W., LARSEN, KAI and RAHN, KNUD, Experimental and cytological studies on plant species. III. *Plantago coronopus* and allied species 423

EHRENBERG, C., GUSTAFSSON, Å., PLYM FORSHELL, C. and SIMAK, M., Seed quality and the principles of forest genetics 291

EHRENBERG, LARS, Factors influencing radiation induced lethality, sterility, and mutations in barley 123

FAGERLIND, FOLKE, The mechanism of chiasma formation and crossing over 279

FALK, RAPHAEL, Studies on X-ray induced viability mutations in the third chromosome of *Drosophila melanogaster* 259

— Some preliminary observations on crossing over and non-disjunction 376

HÅKANSSON, ARTUR, Chromosome numbers and meiosis in certain *Salices* 454

HÖST SAUNTE, LISE, Cyto-genetical studies in the *Cochlearia officinalis* complex 499

JOSEFSSON, A., Tetraploid turnips a progress in Swedish root crop breeding 285

KIHLMAN, B. A., Oxygen and the production of chromosome aberrations by chemicals and X-rays 384

LIMA-DE-FARIA, A., Structure, division and delimitation of the kinetochore in *Tradescantia* 209

— The division cycle of the kinetochore 238

LUNDQVIST, ARNE, Genetics of self-incompatibility in *Festuca pratensis* HUDS. .. 518

MÜNTZING, ARNE and NYGREN, AXEL, A new diploid variety of *Poa alpina* with two accessory chromosomes at meiosis 405

NYBOM, NILS, The pigment characteristics of chlorophyll mutations in barley .. 483

NYGREN, A., Polyploids in *Melandrium* produced by nitrous oxide 287

OLSSON, GÖSTA and HAGBERG, ARNE, Investigations on haploid rape 227

OLSSON, G., JOSEFSSON, A., HAGBERG, A. and ELLERSTRÖM, S., Synthesis of the ssp. *rapifera* of *Brassica napus* 241

RASMUSON, BERTIL, A nucleo-cytoplasmic anomaly in *Drosophila melanogaster* causing increased sensitivity to anaesthetics 148

ROUSI, ARNE, Cytological observations on the *Ranunculus auricomus* group 516

SORSA, VEIKKO, Outlines of meiosis in the moss genus *Sphagnum* 250
